Now thinking overall about the goal of making the American Dream more attainable. I am going to read some steps that the next President and Congress could take to help make the American Dream more attainable. For each one, please rate how effective that step would be in making the American Dream more attainable. Use a scale from 0 to 10, where 10 means this step would be very effective, and 0 means the step would not be effective at all, and 5 is neutral. You can choose any number between 0 and 10.
