

**RESOLUTION**  
**Solidarity with striking UAW members at GM**

**Change to Win Convention**  
**September 25, 2007**

We, the delegates to the 2<sup>nd</sup> Change to Win Convention, representing 6 million members in 7 unions pledge our support for the striking UAW members at GM plants throughout the country.

The UAW has led the way in winning improvements in wages, benefits and working conditions that lifted millions of its members and their families out of poverty, and made the American Dream a reality.

They are striking now to maintain the American Dream that they fought so hard to win.

They were able to make the American Dream a reality through solidarity on the shop floor, in their communities and at the ballot box.

**BE IT HEREBY RESOLVED** that this 2<sup>nd</sup> Change to Win Convention calls on all Change to Win affiliates at the national and local levels to demonstrate solidarity with UAW members and their families by honoring their picket lines and providing moral, organizational and material support for them.

**BE IT FURTHER RESOLVED** that Change to Win Members in cities and states across the country become fully engaged at all levels in strike support for our brothers and sisters in the UAW in order to bring victory to them and their families.
